Ray Marcus.

But I'm not using a window envelope!

My recollection must be wrong and what I believe I saw must have been earlier than 335 because I believe I saw more of the back of the head, and clearly. Before he fell over to his left.

You are right, the xeroxes are as good for my purposes, until I can get one with the real color, showing the back of the shirt collar better.

I want to be able to show there is no blood there.

I hope all is going well with you,

Thanks, and best wishes,

Harold
